Patient Satisfaction & Clinical Expertise

AN UNSURPASSED COMBINATION

The Medical University of South Carolina has been named as one of **America's Best Hospitals for Ear, Nose & Throat Care** by U.S. News & World Report for the third consecutive year. Patient satisfaction surveys reveal that our ENT doctors consistently provide the professional quality health care that patients come to expect.

Our ENT physicians have been fellowship trained through some of the very best programs in the country and limit their individual practices to:

- **Facial Plastic Surgery**
- **Laryngology** (Voice and swallowing disorders)
- **Oncology** (Tumors of the head and neck)
- **Otology** (Ear disorders)
- **Pediatric ENT**
- **Rhinology** (Sinus and allergy disorders)

Comprehensive ENT Services for Adults & Children

The MUSC Department of Otolaryngology – Head & Neck Surgery offers comprehensive medical and surgical services to patients in South Carolina and beyond.

Our number one mission of providing excellence in patient care is made possible by access to cutting-edge technology, the ability to quickly implement our research developments and those from others within the field, and by the diverse subspecialty services we offer.

By combining cutting-edge technologies with laboratory discoveries, we optimize health and quality of life for our patients. We collaborate with hundreds of other medical specialists at MUSC and can truly provide a multidisciplinary approach to certain diseases, which can make the critical difference.
