

## FELLOWSHIP

### Head and Neck Oncologic & Reconstructive Surgery

July 1, 2009 - June 30, 2010

Applications are now being accepted for the fellowship in Head and Neck Oncologic and Reconstructive Surgery at the Hollings Cancer Center, Medical University of South Carolina.

This one-year position includes an emphasis on head and neck tumor surgery, microvascular reconstructive surgery, thyroid/parathyroid disorders, skull base surgery, minimally invasive endoscopic skull base, laryngeal, and endocrine surgery and innovative biotechnology-related reconstructive surgery. Additional clinical time is available in Mohs micrographic surgery, oculoplastic surgery, maxillofacial prosthodontics stereotactic radiotherapy, brachytherapy, intratumoral chemotherapy, congenital craniofacial surgery, and cleft lip/palate surgery.

The fellow will have the opportunity to work with six fellowship trained head and neck surgeons including three with microvascular free tissue transfer fellowship training. The fellow will be given the appointment of Clinical Instructor in the Department of Otolaryngology-Head and Neck Surgery and will be exposed to multiple preceptors in a busy, tertiary care, academic health care facility. The applicant should have significant experience in surgery of the head and neck and be BC/BE in Otolaryngology, General Surgery, or Plastic Surgery. A South Carolina medical license must be obtained prior to the fellowship year.
